PROPRIETORS. No. 18 HAYNE STREET CITY PRINTERS TERM3 CASH.

NUBSCRIPTION

MONDAY MORNING, JULY 15, 1867.

MIDSUMMER. Herei sweep the feelish leaves away— I will not crush my brains to-day! Look! are the southern curtains drawn ? Fetch me a fan, and so begone?

Not that—the palm tree's rustling leaf Brought from a parching coral reef! Its broath is heated—I would sing The broad gray plumes—the eagle's wing

I hate these roses' feverish blood I Pinck me a half-blown lily-bud. A long stemmed lily from the lake, Cold as a colding water make.

Rain me sweet eders on the air, And wheel me up my Indian chair, And sp cad rome book not overwi Flat out before my sleepy eyes, Who knows it not—this dead recoil Of weary fibros stretched with toll—

ary fibres stretched with toil— sulse that fin ters faint and low a Summer's scothing breezes blow O Nature I bare thy loving breast, And give thy child one hour of rest— One little hour to lie unseen Beneat—thy searf of loafy green I

So, curtained by a single pine, Its murmuring voice shall bl-nd with mine, ing vorting irrans. my faltering irrans. my faltering music cles away.

In the construction of which they have introduced every known and valuable improvement. They have invaria-bly been selected and used by all of the world's ac-knowledged great artists who have visited this country professionally, both for private and public use.

GOTTECHALK.

I consider Chickering & Bons' Pianos superior to any in the world.
They are unit varied for their singing qualities and for the harmonious roundness of their tone. There is a the harmonious roundness of their tone. There is a top to the harmonious roundness of their toness and purity which I do not find in any other discussions. While the base is distinguished for power without harshases, and for a magnificent senerity.

Among the chiefpoints of axcellence of the Chickening Planos, of which speak the recounsed artists in their congratulatory testimoulais to the Mesers. Chickering, are the greatest possible depth, richness and volume of tone, combined with a rare brilliancy, clearness and perfect eveniess throughout the entire scale; and, above all, a surprising duration of sound, the pure and sympathetic quality of which never changes under the most delicate or powerful touch.

During the past forty-three years this firm has manuscurred.

THALBERG. I consider Chickering & Sons' Planes, beyond com-arison, the best I have ever seen in America.

Your Plance are superior to any I have ever seen in this country or in Kurope.

I have never heard a tone so perfect; it yields every expression that is needed in music, and its quality is capable of change to meet every sentiment. This is a rare power, and is derived from the perfect purity of its tone, together with its sympathetic, clastic and well balanced touch.

It may be estimated to our patrons and friends among the publicat large to state that testimonials have been received from all the leading artists who have visited or are now residing in the United States, a few of whose names, besides those above, we append:
